

# REPLACEMENT FUEL BOWL

## CARTER THERMOQUAD

### Ordering Instructions

**A. If carburetor tag number is available, use interchange to correctly identify correct fuel bowl number.**  
**B. If carburetor tag number is NOT available, use the following visual identification procedure to obtain a fuel bowl reference number. Then cross the reference number to a Tomco part number.**

- Determine if you have an OPEN through (Example A) or a CLOSE through (Example B).

First letter of part number prefix: "O" = OPEN or "C" = CLOSED

- Determine if your unit has an EGR pick-up tube (Example D) or no EGR pick-up tube (Example C). The EGR tube will be a brass tube inside the fuel bowl tube as shown in Example D.

Second letter of part number prefix: "T" = EGR pick-up tube or "O" = NO EGR pick-up tube

- Measure diameter of primary bores to determine if you have a large (1 1/2") or small (1 3/8") bore body. Note: Take this measurement on the throttle body side of fuel bowl.

- Base part number is determined by bore size: Large (1 1/2") = 2869 Small (1 3/8") = 2597

- First letter of the suffix: (Example C) "C" = Rubber tube cap (for units without EGR tube). If EGR tube is present, no letter needed.

- Second letter of suffix: In back of fuel bowl (see example E), see if a welch plug is in your unit. If so, put a "P" on the end of the part number. If NO welch plug, no letter is needed.

- In the center of the fuel bowl, between the primary and secondary bores (Example F), most units have four (4) drilled holes. Should your unit have five (5) drilled holes, put a "-1" after the base part number, i.e. CO-2869-1CP

Fuel Bowl Ref. No.	Tomco No.	Fuel Bowl Ref. No.	Tomco No.
CO-2869-C	8600	CO-2597-C	8607
CO-2869-1CP	8601	CT-2597	8608
CT-2869	8602	OO-2597-C	8609
OO-2869-C	8603	OO-2597-CP	8610
OO-2869-CP	8604	OT-2597	8611
OT-2869	8605	OT-2597-P	8612
OT-2869-P	8606		

#### Fuel Bowl Reference Number Example:

OT-2597-P

"O" = Open trough  
 "T" = Has EGR tube  
 2597 = Small bore (1 3/8")  
 = No rubber cap needed, has EGR tube  
 "P" = Has welch plug

CO-2869-1CP

"C" = Closed trough  
 "O" = NO EGR tube  
 2869 = Large bore (1 1/2")  
 -1 = 5 drilled holes  
 "P" = Welch plug
